§2. Motionshallen

a. Next semester.

Hall slots are unchanged for this semester due to that the overwhelming majority are satisfied.

b. K&K & HA, messages about motionshallen

HA informs that it's maximum of 8 people in the gym hall, Scania, group rooms. Signs outside each room will be placed 19th January.

d. Full size exercise hall with the student union Council.

Discussion and thoughts on full size hall:

- *ZIK - Full size hall would make it easier to engage more people in activities. Some sports can't even be conducted in the current one, such as basketball.*
- *KFIK - we have one more program now, lots of people. Could have more people playing at the same time, no waiting.*
- *iDrott - have questions regarding financing of a full size hal. Chairperson Jonathan says that the union has funds but the challenge is to find available space at a campus location.*
- *Next step is to have the council decide if this is the course ahead.*

§4. Presentation of each section

a. How are the activities going?

- *iDrott wonders if any have held digital/distance activities-*
- *FIF has held dance courses as well as a Christmas calendar. Online tournament with games, very popular. It was also live streamed. Made us reach out to others than we normally would.*
- *ZIK - once a week before X'Christmas, yoga, circuit training, tabata. Hard to attract people. We held a competition and it attracted a bit more.*
- *IF has a step challenge with prizes. Also initiative at Musikhjälpen with running challenge.*
- *CIS - we canceled all activities except padels series since it's not an open event. Series could be an option since it does not gather large groups.*
- *IFK - focused a lot on SoMe, trying to build a community. On Wednesdays we had a workout we recommended. Lots of Instagram.*

b. What are your plans under current recommendations from RF and FHM?

New pandemic law since 10th Jan. Current recommendations are in place at RF, so we are looking into the union's recommendations at the moment. We will try to look at the bigger picture and not try to find loopholes, to contribute to help the spread of infection.

c. Recommendation from the management team

d. Past events and upcoming events

CM in virtual training

Current standings are presented

Jonathan Sjölander,
